

DESCRIPTION OF MOBEE KNOWLEDGE HUMAN SYSTEM BIOLOGY- BASED KM (HSBKM™) MODEL FRAMEWORK : “WE ARE KM-REGULATED BY NATURE vice-versa BY NATURE WE ARE KM MODEL”

By : Md Santo – Founder Social Networking Site <http://mobeeknowledge.ning.com>

- Somatic Aspect / Physical Structure (Behaving as Object)**

(Physical) Organ System	Management Technique / Management (Tools) Types Hub
(Mind) Brain	Learning Hub
(Consciousness) DNA	Free Will / Higher Consciousness Hub

- THE ORIGIN OF KNOWLEDGE & KNOWLEDGE MANAGEMENT : DI-KW SEPARATED ENTITIES MODEL** (Source : <http://mobeeknowledge.ning.com/forum/topics/the-origin-of-knowledge-and-km>)

Human Knowledge and KM Enlightenment Agent (HEA)				
Non Living HEA : exist outside human being behaving as Object		Living HEA or Human Knowing Tools : evolved as emergent property inside human being as Complex System having Consciousness and behaving as Subject		
Nature : Physical Realities	Man-made : Data(D) and Information (I)	Knowledge (K) originated from Human Physical Senses (Peripheral Nerve System)	Knowledge (K) originated from Human Mind Brain (Central Nerve System)	Knowledge (K) originated from Human Consciousness DNA (Genome DNA System)

		K with Lower Consciousness (KLC)	K with Medium Consciousness (KMC)	K with Higher Consciousness (KHC) (K and beyond)
--	--	---	--	--

• **Psycho Aspect / Non-Physical Structure (Behaving as Subject)**

Human Knowing Tools : Peripheral Nerve Systems (Human Senses)	Knowledge with Lower Consciousness (KLC)
Human Knowing Tools : Central Nerve Systems (Mind Brain)	Knowledge with Medium Consciousness (KMC)
Human Knowing Tools : Genome System (Consciousness DNA)	Knowledge with Higher Consciousness (KHC)

• **Human System Biology-based KM (HSBKM) Model : Psycho Aspect as Subject**

Knowledge with Lower Consciousness (KLC)	<ul style="list-style-type: none"> KM TOOLS component covering IT/ICT, Web 1.0 and 2.0 incl. Social Media platforms. (Referred to "Machine or Techno Learning" or to Category 7.0 (PCF – APQC**) as corporate orientation). KM Tools as 'Corporate Senses' be similar to human senses as Knowledge with Lower Consciousness (KLC). We give weighted score 1 as value of KLC
	<ul style="list-style-type: none"> KM PROCESS FRAMEWORK component

<p>Knowledge with Medium Consciousness (KMC)</p>	<p>covering Human (Tacit) Mind incl. Web 3.0 and/or Semantic Web including Artificial Intelligence (AI) (Referred to “Individual Learning” or to Category 12.0 (PCF – APQC**) as corporate orientation). KM Process Framework as ‘Corporate Mind Brain’ be similar to human mind brain (personal learning and education) as Knowledge with Medium Consciousness (KMC). We give weighted score 3 as value of KMC</p>
<p>Knowledge with Higher Consciousness (KHC)</p>	<ul style="list-style-type: none"> • KM STANDARDS (Culture and Value) component covering Codified / Explicit Knowledge, Human Social Behavior, Organizational Culture (Learning Organization. (Referred to “Organizational Learning” or to Category 1.0 – 2.0 – 3.0 – 4.0 – 5.0 – 6.0 – 8.0 – 9.0 – 10.0 – 11.0 (PCF-APQC**) as corporate orientation). KM Standards (Culture and Value) as ‘Corporate Consciousness DNA’ be similar to human consciousness DNA (collective learning and education) as Knowledge with Higher Consciousness (KHC). We give weighted score 5 as value of KHC

** Referring to PCF – APQC = Process Classification Framework – American Productivity and Quality Center as taxonomy of cross functional business process comprising of 12 Categories :

1. Develop Vision and Strategy

2. Develop and Manage Products and Services
3. Market and Sell Products and Services
4. Deliver Products and Services
5. Manage Customer Service
6. Develop and Manage Human Capital
7. Manage Information Technology
8. Manage Financial Resources
9. Acquire, Construct, and Manage Property
10. Manage Environmental Health and Safety (EHS)
11. Manage External Relationships
12. Manage Knowledge, Improvement, and Change

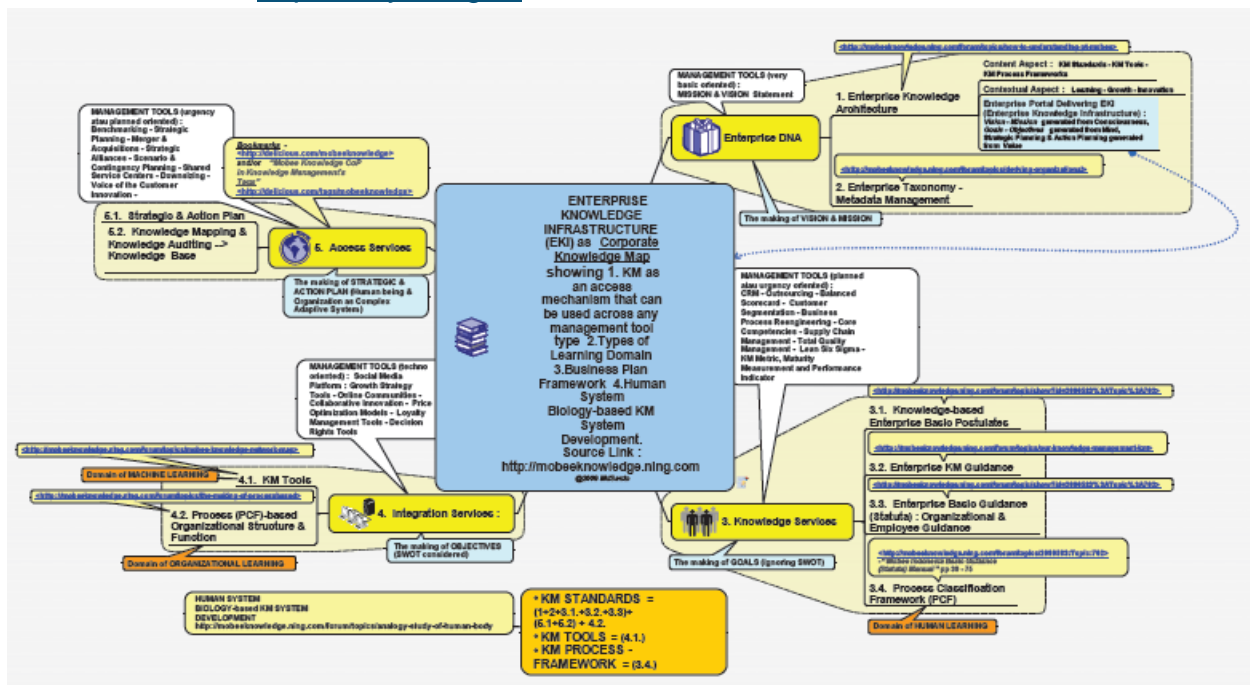

• **DOMAIN OF HUMAN SYSTEM BIOLOGY-BASED KM (HSBKM) MODEL**
FRAMEWORK : Object (add 1-2-3) and Subject (add 4) aspect

1. KM is/as an access mechanism	<p>...that can be used across any management tool types under 4 group of management (tool) type considerations : Basic Oriented, Planned Oriented, Techno Oriented as well as Urgency Oriented types of Management. Social Media (SM) as an entity of management tools platform could be assumed as Techno Oriented type.</p> <p>(http://mobeeknowledge.ning.com/forum/topics/webbased-knowledge-management - WEB-BASED KNOWLEDGE MANAGEMENT 2.0 MAP : THE USE OF IT IN WIDE SECTORS) → Derived from : <i>Management Technique / Management (Tools) Types Hub (as Object)</i></p>
2. The study of Learning Domains loci	<p>... each with broad aspects including Human Learning, Organizational Learning as well as Machine (Techno) Learning → Derived from : <i>Learning Hub (as Object)</i></p>

<p>3. Developing Business Plan Framework</p>	<p>... namely Vision-Mission-Goals-Objectives-Strategic & Action Planning → Derived from : Free Will / Higher Consciousness Hub (as Object)</p>
<p>4. Human System Biology-based KM System (HSBKM©) *</p>	<p>... comprising of KM Tools(Managing by <i>Organizational Senses</i> identical with 'Peripheral Nerves System' level or Lower Consciousness) - KM Process Frameworks (Managing by <i>Individual Mind Brain</i> identical with 'Central Nerves System or Brain' level or Medium Consciousness) - KM Standards (Managing by <i>Organizational Value & Culture</i> identical with 'Consciousness DNA' level or Higher Consciousness). Human Consciousness as Human Knowing Tools therefore comprising Knowledge with Lower Consciousness (KLC), Knowledge with Medium Consciousness (KMC) and Knowledge with Higher Consciousness (KHC) respectively → Derived from Psycho Aspect / Non-Physical Structure (Behaving as Subject)</p>
